

SBC Broadband Solutions

Truly unlimited, super reliable broadband connectivity options with no limits, no restrictions and no worries.

Overview

We offer a range of great value, multi-award winning, reliable Internet connectivity solutions, designed with businesses in mind. Our partner delivery infrastructure ensures you get the speed and bandwidth you need. No matter what size your business, we can help you 'get connected'.

Unlimited Fibre Office – Only £39.95 per month

If you're looking for a truly unlimited super-fast connectivity solution that you can rely on, consider our Unlimited Fibre Office package.

- Download speeds of up to 76Mbps
- Upstream speeds of up to 19 Mbps
- Static IP address included as standard
- Speed and performance SLAs
- Lead time: 10-15 working days
- Truly unlimited usage
- No traffic management slowdowns
- Line rental only £11.67 per month

From basic applications like email, through to using hosted applications and converged solutions incorporating voice and video conferencing technology, our high speed, reliable broadband solutions enable your business to share information faster than ever before.

Choosing the Right Solution

When deciding on the most appropriate Internet connectivity solution, consider the following:

- Types of applications in use now and in the future – how much bandwidth will you need?
- Budget available
- Installation timescale requirements
- Available options – not all solutions are available in all areas

Product Guide

Unlimited ADSL Broadband Office – Only £22.95 per month

If you're looking for a cost effective ADSL Internet connectivity solution that you can rely on, consider our Unlimited broadband package.

- Download speeds of up to 17Mbps
- Upstream speeds of up to 1Mbps
- Static IP address included as standard
- Lead time: 10-15 working days
- Truly unlimited usage
- No traffic management slowdowns
- Line rental only £11.67 per month

Leased Lines

True business class connectivity options offering symmetrical speeds, guaranteed bandwidth and 1 100% premium SLA honoured by service credits. Leased Lines are ideal if you:

- Have several offices or buildings spread across a local area
- Require guaranteed Internet bandwidth
- Need to transfer large quantities of data quickly and reliably between sites for data backup and disaster recovery
- Are running costly older technologies

EFM (Ethernet in the First Mile)

Provides high bandwidth connectivity which is reliable, scalable, resilient and capable of carrying business critical applications. EFM is a key enabling technology for Cloud Computing, eCommerce and Remote Working. It uses multiple copper pairs instead of fibre to deliver guaranteed symmetrical speeds, backed by a comprehensive SLA.

- Speeds of 10-35Mbps
- Lead time: Minimum 30 working days
